Dear Mr. Brandt:

This is a request that you submit not later than September 7, 1969, plans and specifications for facilities designed to control all discharges resulting from surface runoff, either to discharge any discharge into State waters. These plans and specifications should include a full description of all corrective surface runoff you intend to use to the local area, as well as a system. After receipt of these plans, the matter will be presented to the Water Control Board for its consideration on September 10, 1969.

Thank you for your cooperation in this matter.

Very truly yours,
A. H. FARRAR
